Out-patient Department for consultations only. Appointments made through patients' own doctors.

This time-table is prepared by the Out-patient Arrangements Committee of King Edward's Hospital Fund for London, which was appointed by His Royal Highness the Prince of Wales, President of the Fund, to assist in carrying out the recommendations of the Committee of Inquiry which, under the Chairmanship of the Earl of Onslow, reported in 1932 on Out-patient Methods as affecting the suitability of patients and the time of waiting.

Lord Onslow's Committee recommended that hospitals should be encouraged to develop the consultative side of their out-patient work and the reference, subject to certain safeguards, of non-urgent minor cases, after first attendance, to suitable agencies which provide general practitioner treatment; and that various time-saving methods of procedure or improvements in accommodation should be studied by hospitals with a view to action where appropriate.

Among matters of detail they advocated the use of standard forms for Doctors' Letters and Hospital Replies, and of Hospital Out-patient Time-Tables.

The first edition of this time-table was accordingly issued in September, 1933, accompanied by specimen standard forms prepared by the British Medical Association and the London Panel Committee.

The following publications can be obtained from Messrs. Geo. Barber & Son, Ltd., Furnival Street, London, E.C.4.

Report on Out-patient Methods	Price 1/9 post free.
Summary of Report	Price 1½d. post free.
Memorandum on Standard Forms and Hospital Out-patient Time-Tables, September, 1933...	Price 1½d. post free.
Out-patient Time-Table at London Voluntary Hospitals, revised issue, May, 1934	Free.

THE object of this Time-table is to provide information which will help to prevent the waiting, with possible resulting hardship, which occurs when patients attend hospital out-patient departments at the wrong hour or even on the wrong day.

The Table can be kept folded along the middle line as an 8vo booklet, or it can be kept unfolded in 4to form, and can then be inserted in a telephone directory.

The blank spaces can be used for manuscript notes, e.g., for names of particular consultants.
